

# Early Education: Infants – Toddlers Course

## Course Overview

This course will engage first-time parents or those caring for infants, toddlers, and children.

You will learn a variety of skills including providing high-quality care for infants to toddlers and creating a healthy and safe environment. There are many factors that must be understood, this course has developed the skills and knowledge on current early childhood theory specific to infant and toddler programs, introductory knowledge of the importance of 'the first 1000 days and brain development in children under 3 years, and the importance of rituals and relationships in their everyday work.

## Course Focus

- Critical knowledge for working with children under 3 years
- Infants to toddlers in a care setting
- An infant to toddler curriculum
- Best practice with infants to toddlers

Participants will engage in a blend of theory content, and simulated and practical environments during the course to gain a deep understanding.

Our course study load is delivered 100% online, no classroom required, perfect for studying at a pace that suits your lifestyle.

Enrol now to gain instant access to this course and start learning right away.
